

BIOSTREAM VCP

VINYL CLEANER + PROTECTANT

DESCRIPTION

BioStream VCP (Vinyl Cleaner and Protectant) is a water-based silicone emulsion. It is designed to clean and protect vinyl parts from dry-rot and UV degradation. It is formulated to be non-flammable. It is formulated in a non-flammable liquid and works on vinyl car tops, dash boards and accessories.

BENEFITS

- Cleans and protects vinyl surfaces
- Non-flammable
- Protects vinyl from harmful UV rays, acids and oxidation

APPLICATION

Wash area thoroughly and dry with clean towels. Apply **BioStream VCP** onto the vinyl areas and rub into the surface. Allow to dry completely and remove with a clean microfiber cloth.

PACKAGING STORAGE + SHELF LIFE

Recommend storing in sealed containers at <80° F for no longer than 24 months.
